Troy Atkinson

Phone: (956) 525-9865 | Email: troyat88@gmail.com | Seattle, WA
[LinkedIn](#) | [Portfolio](#)

Driven and highly adaptive professional, passionate about developing digital products that look and work great. Strengths in creativity, teamwork, and building projects from ideation to execution. I am excited to begin my career as a developer and ready to be a contributing factor to my team.

Technical Skills

HTML, CSS, GitHub, Bootstrap, JavaScript, JQuery,

Projects

Front-End Project | https://troyat88.github.io/Find-My-Plate/
The goal of this project was to add to the options that diners have for finding their next meal. My team and I created an easy to use application that allows users to find restaurants based on current or desired location with the ability to search by cuisine and to search menus.
- Skills | Technologies Used: HTML, W3-CSS, CSS, Javascript, Jquery, Google-Maps API, Documenu API, GitHub, Agile and Scrum methodologies

Weather Dashboard | https://troyat88.github.io/Weather-Dashboard/
 An application that allows users to view current and forecasted weather conditions with a simple search by city.
- Skills | Technologies Used: HTML, W3-CSS, CSS, Javascript, Jquery, OpenWeather API, MomentJS API, GitHub
